

Dear Brother Lyle Jeffs, and all FLDS,

August 10, 2011

Please take this as a matter of life or death. This is a warning, as a brother and friend.

As a priesthood bearer, there is a responsibility to see to it there is no iniquity in the church, and to protect the virtue, and values of our church. You all have had five long years and numerous opportunities to clean this immoral mess up, and you have not!

You refused to take the directives and confessions after Warren Jeffs was stopped in 2006, that he acknowledged his perverted, immoral behavior and cover up. In January 2007, you refused to take his confession, that men that held Priesthood were sent away unjustly and they needed reunited with their families and loved ones, and you failed your moral test again. Warren Jeffs confessed that he usurped his authority, and he was not ordained the prophet and never was, and asked you and others to turn to the one that was legitimately called, that of William E. Jessop, and asked that men sent away to return and take their place. You and "others" refused to come clean before the Lord and the people, and started usurping authority to yourselves.

You condoned the immorality by your failure to accept once again the terrible deeds that were done, by believing you can sit in the halls of the court and turn off the evidence and deny the abominations of Warren Jeffs, once again showing a willingness to let men go to prison, bringing on the wrath of God in the form of raids against our lands, children and loved ones, leaving the saints to suffer under terrible evils, deceptions and corruption, and continuing to cover it up, lying repeatedly to the people, bringing one plague after another to the people, removing love, replacing it with name calling, causing fear and hate to those who knew and accepted the truth, in an all-out sabotage of the truth.

Stop dear brother as we did, and turn to Heavenly Father for the truth and salvation, and He will help us and the saints that need the father of truth instead of this deadly deception of evil. Please turn to the first two commandments with all your heart. We tell you as brethren, **no one has the right to cover up immoral conduct**, no matter who you think they are if they are involved in evil and wrongdoing. The Lord is no respecter of persons!

This is our opportunity to come clean, for the Lord said He will not be mocked, or you are going down with the wicked and be damned. I love you and ask the Lord to help us to come clean before Him and be counted among His people that are the honest and pure in heart.

We are at peace, leaving judgment in the hands of God. As you can see for yourself, He is very capable.

Sincerely,

William Edson Jessop

William Roy Jessop
